DECISION OF THE ENERGY CHARTER CONFERENCE

Subject: Inclusion of Bosnia and Herzegovina in the Annex ID of the Energy Charter Treaty

The Conference agreed in principle the addition of Annex T entries for Bosnia and Herzegovina (doc. 31) and the inclusion of that country in Annex ID of the Charter Treaty. This was necessary because Bosnia-Herzegovina, which did not sign the Charter until April 1995, had not been involved in the Treaty negotiations.

Norway stressed that, although they supported this proposal, consideration would have to be given on how to handle its legal implications.

The Chairman referred this issue to the Legal Advisory Committee for its advice on the procedures for effecting these changes in the relevant Annexes of the Treaty.
