

Brussels, 4 March 1998

NOTE FROM THE CONFERENCE CHAIRMAN

Subject: Texts for Adoption

At the December Conference delegations representing all signatories to the Energy Charter Treaty concluded negotiations on the Supplementary Treaty and the Amendment to the Trade-Related Provisions of the Energy Charter Treaty (incorporating Energy-Related Equipment).

At that meeting I undertook to circulate the final draft texts of the Supplementary Treaty and the Trade and Energy-Related Equipment Amendment for adoption at the next Conference meeting in April 1998. Enclosed are my final proposals for those texts. The texts are updated to reflect the discussions at the December meeting, the outcome of the technical legal review by the Legal Advisory Committee and the results of consultations on the few outstanding points. The report of the LAC is circulated in CC 114. As summarised in my Conclusions on Negotiations from the December Conference meeting (ref. CC 111) there were some outstanding points which I have dealt with as set out in pages two to four of this note.

It is my belief as Chairman of the Conference that the unique character of the adoption of the texts of the Supplementary Treaty and of the Trade and Energy-Related Equipment Amendment provided for in the ECT should reflect the spirit of the negotiations over the last three years.

All Delegations are reminded to ensure that they have all necessary instructions and authority for the purpose of adopting the text of an international agreement (such as the Supplementary Treaty and the Trade and Energy-Related Equipment Amendment) and that they are properly accredited. Delegations are reminded that for the Trade and Energy-Related Equipment Amendment the adoption by the Conference is the final stage before ratification (ref. Article 42) and that the Trade and Energy-Related Equipment Amendment provides for provisional application from the date of adoption (subject to the opting out provisions). The text of the Supplementary Treaty will after adoption be open for signature later this year and thereafter subject to ratification, acceptance or approval. Delegations are also asked to ensure that their mandates provide sufficient flexibility to deal with any changes that the Conference may agree on at the April meeting.

1. Supplementary Treaty

Annex PR:

At the December Conference meeting there was agreement that there would be an Annex PR. I have therefore included the Annex PR as that Annex was presented to the December Conference with the addition of Uzbekistan to the list of countries.

Based on consultations with delegations I have included a compromise proposal for a new Article 10(5)(c) on Conference reviews of Annex PR. The principle of reviews by the Conference was agreed at the December Conference.

Future restrictions on resale:

At the December meeting it became clear that there is no possibility for agreement on inclusion of any provision allowing future discriminations in relation to resale. Acknowledging that other measures less discouraging to foreign investors probably could meet the concerns of some delegations, those delegations entered a scrutiny reserve at the last meeting. I have received no comments by the 31 January deadline in this respect and I therefore note that it is generally accepted by delegations that there is no allowance for exceptions for future restrictions on resale.

Existing restrictions on resale:

The limited proposal with respect to existing restrictions was agreed at the last meeting. I have received no comments by 31 January on that proposal, which therefore is included in the attached text (Understanding No. 3, paragraph two).

Banking:

In December there was agreement that there should be an Understanding which makes it clear that in relation to the foundation and establishment of banks and their licensing Article 10(2) places on Contracting Parties no obligation relating to economic activities other than Economic Activities in the Energy Sector. I have therefore included the text of Room Document 12 from 18 December 1997.

Dispute settlement:

I concluded in December that Article 26 will apply in the context of the ST maintaining the view that the only "limitation" that could attract general acceptance is the proposal on possible future reservations.

Conflict rule:

Only one delegation has indicated support for the Norwegian proposal to include a conflict rule. Given the long and careful negotiation of the ST, actual conflict or inconsistency between the ST and the ECT would be highly unlikely. Therefore the operating assumption for the attached text is that Article 10(4) and Understanding No. 6, together with the relevant rules of the Vienna Convention on the Law of Treaties, will be

sufficient to resolve any possible conflict between the terms of the ECT and those of the ST.

Annex EX:

Annex EX (formerly Annex ENT), updated in accordance with notifications received from delegations, is included. For practical purposes only the heading of Annex EX has been included in the main body of the ST whereas the entries in the Annex have been stapled separately. In the text as adopted the entries will be included in the body of the Annex (as Annex EX).

General on the Supplementary Treaty:

Some editorial changes have been made to Article 10(2) on advice from the LAC to reflect coverage of Investment in a Contracting Party but not third party investments.

Note that in order to avoid confusion in references to Article 10 of the ST, Article 9 (Provisional Application) has become Article 10, and Article 10 (Reservations) has become Article 9.

2. Trade and Energy-Related Equipment Amendment

An explanatory note to the Trade and Energy-Related Equipment Amendment (referred to as the Amendment) is attached.

GATT Article XXIV:

To resolve the difficulty concerning the application of paragraph 6 of this article, I have included Understanding No. 1 to the effect that any signatory affected by a tariff increase as mentioned in the first sentence of this paragraph would be entitled to seek consultations in the Conference. The Russian Federation has lifted its scrutiny reserve.

Annex BR/BRQ:

The Conference powers to list Contracting Parties and other signatories in Annexes BR/BRQ at the time of introduction of a mandatory tariff limit have been specified in the text. As agreed in December those Annexes will be empty until there is a Conference decision to introduce a legally binding tariff commitment. I have included a proposed Declaration which envisages that the Conference would give positive consideration to the long standing position of some delegations concerning listing in the Annexes.

A Decision has been added to allow a signatory, which does not apply the Amendment and which is not listed in Annexes BR/BRQ when the Decision on legally binding tariff commitments is taken, to notify that until it is listed in Annexes BR/BRQ it will apply the Amendment as if the best endeavours commitment continued to apply. I hope that this overall package will provide an acceptable solution for Japan.

Moving items of energy products and equipment to a mandatory tariff commitment:

I have as agreed at the December meeting included Understanding No. 3 on annual reviews by the Conference to consider moving of items.

Provisional Application

The LAC noted that the particular situation of a signatory which does not provisionally apply the ECT in respect of the future application of the Amendment could be met by a declaration under the provisional application article that the particular signatory did not have a firm position on future provisional application and that its declaration of non-acceptance of future provisional application represented a holding position which it might withdraw later. On further reflection, I consider that it would be better to include a specific provision which makes it clear that a signatory which does not apply the ECT in accordance with the ECT Article 45(2) may make a declaration at the latest on the date when the ECT becomes applicable to it.

General on the Amendment:

Understanding No. 2 has been included to reflect the substance of Room Document 13 of 18 December 1997; it will enable concessions offered formally by non-WTO members listed in Annexes BR and/or BRQ in the process of their WTO accession to be regarded as a commitment under the WTO.

The Joint Declaration on TRIPS which was agreed in December has likewise been included.

As discussed during the December Conference meeting, the sequence of provisions on best endeavours and mandatory tariff commitments has been reversed, including consequential changes in the references to the Annexes EM and EQ. The text therefore now provides first for the best endeavours obligation and secondly for the legally binding commitments regarding limits for customs duties and other charges. The change is only presentational.

The EQ list:

A group of technical experts met in January to finalise consideration of the remaining items of Energy-Related Equipment to be included in the Amendment. The results of that meeting have been included in Annex EQ I.

**Explanatory Note
to the Trade and Energy-Related Equipment Amendment**

Delegations may find this Note useful as it outlines the agreed elements of the Amendment and where those elements are to be found in the text.

1. The Amendment consists of seven Articles and a Decision; three Understandings and two Declarations are related to it.
2. Article 1 contains the text of Article 29 to replace that of the Energy Charter Treaty (ECT).

Article 2 contains other consequential amendments to the ECT (except the amendments to Annexes D and G).

Article 3 contains amendments to Annex D of the ECT (trade dispute settlement).

Article 4 contains the text of Annex W (application of provisions of the WTO Agreement) to replace Annex G of the ECT.

Article 5 contains the new trade-related Annexes to be inserted in the ECT.

Article 6 is the provisional application provision of the Amendment.

Article 7 makes the Decision an integral part of the ECT.

Attached at the back of the text are a Decision, three Understandings and two Declarations.

3. The Amendment expands the ECT trade regime to cover Energy-Related Equipment. It replaces the outdated GATT 47 references and terms with the relevant WTO references and terms. Furthermore, coherence in application of WTO rules under the ECT and under the WTO is ensured (see e.g. Article 2, the new definition of WTO amending ECT Article 1(11), and Annex W, paragraph (B)(10)).
4. The text of Article 29 provides for a best endeavours tariff commitment for both Energy Materials and Products (Annex EM I) and Energy-Related Equipment (Annex EQ I) (see paragraphs (4) and (5)).

This is complemented by the possibility to move to a future legally binding commitment for agreed items which are presently subject to the best endeavours commitment (see paragraphs (6) and (7)).

Accordingly, there is provision for moving items to the level of a legally binding tariff commitment at a later date by a Conference decision requiring a unanimous vote, without having to go through a formal amendment procedure. That procedure

is reflected in Article 2 through the amendment to ECT Article 34(3) (new subparagraph (o)) and Article 36(1) (new subparagraph (g)).

The present Annex EM of the ECT on Energy Materials and Products becomes Annex EM I (see Article 2 renaming Annex EM). Energy-Related Equipment is listed in the new Annex EQ I (see Article 5 of the Amendment). Energy-Related Equipment is defined in the same manner as Energy Materials and Products (see Article 2 of the Amendment inserting a new Article 1(4bis) in the ECT). Items subject to a legally binding tariff commitment will be listed in Annexes EM II and EQ II, both of which are empty until the Conference decides otherwise. Annual reviews by the Conference on the possibility of moving items to a legally binding commitment are provided for in Understanding No. 3.

The Charter Conference, in deciding on moving items to the legally binding standstill commitment, will also decide on the listing of countries in Annexes BR/BRQ. This is provided for in paragraph (7) of Article 29 and in Article 2 of the Amendment including a new subparagraph (n) in ECT Article 34(3). Understanding No. 2 deals with commitments by non-WTO countries listed in Annexes BR and BRQ. The Decision provides an opting out procedure for countries which are not applying the Amendment and which are not listed in those Annexes when the Conference takes a decision to move items to a legally binding tariff commitment.

5. In terms of lay-out, Annex EQ I has been set out in conformity with Annex EM of the ECT. For the avoidance of doubt the Annex also includes a new introductory paragraph confirming that whenever less than the full content of a four or six digit heading is applicable this is signified by the addition of 'Ex' before such heading. Also note that one slash preceding a six digit sub-heading text signifies that it is the "original" text, whereas a double slash signifies qualifications and limitations agreed among the parties to the Amendment.
6. Note that in Annex W, paragraph (A)(1)(f), two WTO instruments, the International Bovine Meat Agreement and the International Dairy Arrangement, have been deleted as a consequence of their termination in the WTO and the recent deletion of them from Annex 4 of the WTO Agreement.

ARTICLE 1

Article 29 of the Treaty shall be replaced by the following text:

ARTICLE 29

INTERIM PROVISIONS ON TRADE-RELATED MATTERS

- (1) The provisions of this Article shall apply to trade in Energy Materials and Products and Energy-Related Equipment while any Contracting Party is not a member of the WTO.

 - (b) Such trade of a Contracting Party which is a state that was a constituent part of the former Union of Soviet Socialist Republics may instead be governed, subject to the provisions of Annex TFU, by an agreement between two or more such states, until 1 December 1999 or the admission of that Contracting Party to the WTO, whichever is the earlier.
- (3)

- (5) A Contracting Party may increase such customs duty or other charge above the level referred to in paragraph (4) only if:
 - (a) in case of a customs duty or other charge imposed on or in connection with importation, such action is not inconsistent with the applicable provisions of the WTO Agreement, other than those provisions of the WTO Agreement listed in Annex W; or
 - (b) it has, to the fullest extent practicable under its legislative procedures, notified the Secretariat of its proposal for such an increase, given other interested Contracting Parties reasonable opportunity for consultation with respect to its proposal, and accorded consideration to any representations from such Contracting Parties.
- (6) In respect of trade between Contracting Parties at least one of which is not a member of the WTO, no such Contracting Party shall increase any customs duty or charge of any kind imposed on or in connection with importation or exportation of Energy Materials and Products listed in Annex EM II or Energy-Related Equipment listed in Annex EQ II above the lowest of the levels applied on the date of the decision by the Charter Conference to list the particular item in the relevant Annex.

A Contracting Party may increase such customs duty or other charge above that level only if:

- (a) in case of a customs duty or other charge imposed on or in connection with importation, such action is not inconsistent with the applicable provisions of the WTO Agreement, other than those provisions of the WTO Agreement listed in Annex W; or

- (b) in exceptional circumstances not elsewhere provided for in this Treaty, the Charter Conference decides to waive the obligation otherwise imposed on a Contracting Party by this paragraph, consenting to an increase in a customs duty, subject to any conditions the Charter Conference may impose.
- (7) Notwithstanding paragraph (6), in the case of trade referred to in that paragraph, Contracting Parties listed in Annex BR in respect of Energy Materials and Products listed in Annex EM II, or in Annex BRQ in respect of Energy-Related Equipment listed in Annex EQ II, shall not increase any customs duty or other charge above the level resulting from their commitments or any provisions applicable to them under the WTO Agreement.
- (8) Other duties and charges imposed on or in connection with importation or exportation of Energy Materials and Products or Energy-Related Equipment shall be subject to the provisions of the Understanding on the Interpretation of Article II: 1(b) of the GATT 1994 as modified according to Annex W.
- (9) Annex D shall apply:
 - (a) to disputes regarding compliance with provisions applicable to trade under this Article;
 - (b) to disputes regarding the application by a Contracting Party of any measure, whether or not it conflicts with the provisions of this Article, which is considered by another Contracting Party to nullify or impair any benefit accruing to it directly or indirectly under this Article; and
 - (c) unless the Contracting Parties parties to the dispute agree otherwise, to disputes regarding compliance with Article 5 between Contracting Parties at least one of which is not a member of the WTO,except that Annex D shall not apply to any dispute between Contracting Parties, the substance of which arises under an agreement that:
 - (i) has been notified in accordance with and meets the other requirements of sub-paragraph (2)(b) and Annex TFU; or
 - (ii) establishes a free-trade area or a customs union as described in article XXIV of the GATT 1994.

- (2) All other provisions in the WTO Agreement which relate to:
- (a) governmental assistance to economic development and the treatment of developing countries, except for paragraphs (1) to (4) of the Decision of 28 November 1979 (L/4903) on Differential and more Favourable Treatment, Reciprocity and Fuller Participation of Developing Countries;
 - (b) the establishment or operation of specialist committees and other subsidiary institutions;
 - (c) signature, accession, entry into force, withdrawal, deposit and registration.
- (3) All agreements, arrangements, decisions, understandings or other joint action pursuant to the provisions listed as not applicable in paragraphs (1) or (2).
- (4) Trade in nuclear materials may be governed by agreements referred to in the Declarations related to this paragraph contained in the Final Act of the European Energy Charter Conference.

(B) Rules Governing the Application of Provisions of the WTO Agreement.

- (1) In the absence of a relevant interpretation of the WTO Agreement adopted by the Ministerial Conference or the General Council of the World Trade Organization under paragraph 2 of article IX of the WTO Agreement concerning provisions applicable under Article 29(2)(a), the Charter Conference may adopt an interpretation.
- (2) Requests for waivers under Article 29(2) and (6)(b) shall be submitted to the Charter Conference, which shall follow, in carrying out these duties, the procedures of paragraphs 3 and 4 of article IX of the WTO Agreement.
- (3) Waivers of obligations in force in the WTO shall be considered in force for the purposes of Article 29 while they remain in force in the WTO.
- (4) The provisions of article II of the GATT 1994 which have not been disapplied shall, without prejudice to Article 29(4), (5) and (7), be modified as follows :
- (i) All Energy Materials and Products listed in Annex EM II and Energy-Related Equipment listed in Annex EQ II imported from or exported to any other Contracting Party shall also be exempt from all other duties or charges of any kind imposed on or in connection with importation or exportation, in excess of those imposed on the date of the standstill referred to in Article 29(6), first sentence, or under Article 29(7), or those directly and mandatorily required to be imposed thereafter by legislation in force in the importing or exporting territory on the date referred to in Article 29(6), first sentence.

- (ii) Nothing in article II of the GATT 1994 shall prevent any Contracting Party from imposing at any time on the importation or exportation of any product:
 - (a) a charge equivalent to an internal tax imposed consistently with the provisions of paragraph 2 of article III of GATT 1994 in respect of the like domestic product or in respect of an article from which the imported product has been manufactured or produced in whole or in part;
 - (b) any anti-dumping or countervailing duty applied consistently with the provisions of article VI of GATT 1994;
 - (c) fees or other charges commensurate with the cost of services rendered.
- (iii) No Contracting Party shall alter its method of determining dutiable value or of converting currencies so as to impair the value of the standstill obligations provided for in Article 29(6) or (7).
- (iv) If any Contracting Party establishes, maintains or authorises, formally or in effect, a monopoly of the importation or exportation of any Energy Material or Product listed in Annex EM II or in respect of Energy-Related Equipment listed in EQ II, such monopoly shall not operate so as to afford protection on the average in excess of the amount of protection permitted by the standstill obligation provided for in Article 29(6) or (7). The provisions of this paragraph shall not limit the use by Contracting Parties of any form of assistance to domestic producers permitted by other provisions of this Treaty.
- (v) If any Contracting Party considers that a product is not receiving from another Contracting Party the treatment which the first Contracting Party believes to have been contemplated by the standstill obligation provided for in Article 29(6) or (7), it shall bring the matter directly to the attention of the other Contracting Party. If the latter agrees that the treatment contemplated was that claimed by the first Contracting Party, but declares that such treatment cannot be accorded because a court or other proper authority has ruled to the effect that the product involved cannot be classified under the tariff laws of such Contracting Party so as to permit the treatment contemplated in this Treaty, the two Contracting Parties, together with any other Contracting Parties substantially interested, shall enter promptly into further negotiations with a view to a compensatory adjustment of the matter.
- (vi) (a) The specific duties and charges included in the Tariff Record relating to the Contracting Parties members of the International Monetary Fund, and margins of preference in specific duties and charges maintained by such Contracting Parties, are expressed in the appropriate currency at the par value accepted or provisionally recognized by the Fund at the date of the standstill referred to in Article 29(6), first sentence, or under Article 29(7). Accordingly, in case this par value is reduced consistently with the Articles of Agreement of the International Monetary Fund by more than twenty per centum, such specific duties and charges and margins of preference may be adjusted to take account of such reduction; Provided that the Conference concurs that such adjustments will not impair the value of the standstill obligation provided for in Article 29(6) or (7) or elsewhere in this Treaty, due

account being taken of all factors which may influence the need for, or urgency of, such adjustments.

- (b) Similar provisions shall apply to any Contracting Party not a member of the Fund, as from the date on which such Contracting Party becomes a member of the Fund or enters into a special exchange agreement in pursuance of Article XV of GATT 1994.
- (vii) Each Contracting Party shall notify the Secretariat of the customs duties and charges of any kind applicable on the date of the standstill referred to in Article 29(6) first sentence. The Secretariat shall keep a Tariff Record of the customs duties and charges of any kind relevant for the purpose of the standstill on customs duties and charges of any kind under Article 29(6) or (7).
- (5) The Decision of 26 March 1980 on “Introduction of a Loose-Leaf System for the Schedules of Tariff Concessions” (BISD 27S/24) shall not be applicable under Article 29(2)(a). The applicable provisions of the Understanding on the Interpretation of Article II:1(b) of the GATT 1994 shall, without prejudice to Article 29(4), (5) or (7), apply with the following modifications:
 - (i) In order to ensure transparency of the legal rights and obligations deriving from paragraph 1(b) of article II of GATT 1994, the nature and level of any “other duties or charges” levied on any Energy Materials and Products listed in Annex EM II or Energy-Related Equipment listed in Annex EQ II with respect to their importation or exportation, as referred to in that provision, shall be recorded in the Tariff Record at the levels applying at the date of the standstill referred to in Article 29(6), first sentence, or under Article 29(7) respectively, against the tariff item to which they apply. It is understood that such recording does not change the legal character of “other duties or charges”.
 - (ii) “Other duties or charges” shall be recorded in respect of all Energy Materials and Products listed in Annex EM II and Energy-Related Equipment listed in Annex EQ II.
 - (iii) It will be open to any Contracting Party to challenge the existence of an “other duty or charge”, on the ground that no such “other duty or charge” existed at the date of the standstill referred to in Article 29(6), first sentence, or the relevant date under Article 29(7), for the item in question, as well as the consistency of the recorded level of any “other duty or charge” with the standstill obligation provided for by Article 29(6) or (7), for a period of one year after the entry into force of the Amendment to the trade-related provisions of this Treaty, adopted by the Charter Conference on 24 April 1998, or one year after the notification to the Secretariat of the level of customs duties and charges of any kind referred to in Article 29(6), first sentence, or Article 29(7), if that is the later.
 - (iv) The recording of “other duties or charges” in the Tariff Record is without prejudice to their consistency with rights and obligations under GATT 1994 other than those affected by sub-paragraph (iii) above. All Contracting

Parties retain the right to challenge, at any time, the consistency of any “other duty or charge” with such obligations.

- (v) “Other duties or charges” omitted from a notification to the Secretariat shall not subsequently be added to it and any “other duty or charge” recorded at a level lower than that prevailing on the applicable date shall not be restored to that level unless such additions or changes are made within six months of the notification to the Secretariat.
- (6) Where the WTO Agreement refers to “duties inscribed in the Schedule” or to “bound duties”, there shall be substituted “the level of customs duties and charges of any kind permitted under Article 29(4) to (8)”.
- (7) Where the WTO Agreement specifies the date of entry into force of the WTO Agreement (or an analogous phrase) as the reference date for an action, there shall be substituted the date of entry into force of the Amendment to the trade-related provisions of this Treaty adopted by the Charter Conference on 24 April 1998.
- (8) With respect to notifications required by the provisions made applicable by Article 29(2)(a):
 - (a) Contracting Parties which are not members of the WTO shall make their notifications to the Secretariat. The Secretariat shall circulate copies of the notifications to all Contracting Parties. Notifications to the Secretariat shall be in one of the authentic languages of this Treaty. The accompanying documents may be solely in the language of the Contracting Party;
 - (b) such requirements shall not apply to Contracting Parties to this Treaty which are also members of the WTO which provides for its own notification requirements.
- (9) Where Article 29(2)(a) or (6)(b) applies, the Charter Conference shall carry out any applicable duties that the WTO Agreement assigned to the relevant bodies under the WTO Agreement.
- (10) (a) Interpretations of the WTO Agreement adopted by the Ministerial Conference or the General Council of the WTO under paragraph 2 of article IX of the WTO Agreement insofar as they interpret provisions applicable under Article 29(2)(a) shall apply.
 - (b) Amendments to the WTO Agreement under article X of the WTO Agreement that are binding on all members of the WTO (other than those under paragraph 9 of article X) insofar as they amend or relate to provisions applicable under Article 29(2)(a), shall apply unless a Contracting Party requests the Charter Conference to disapply or modify such amendment. The Charter Conference shall take the decision by a three-fourths majority of the Contracting Parties and determine the date of the disapplication or modification of such amendment. A request for the disapplication or modification of such amendment may include a request that the application of the amendment be suspended pending the decision of the Charter Conference.

A request to the Charter Conference made under this paragraph shall be made within six months of the circulation of a notification from the Secretariat that the amendment has taken effect under the WTO Agreement.

- (c) Interpretations, amendments, or new instruments adopted by the WTO, other than the interpretations and amendments applied under paragraphs (a) and (b) shall not apply.

STATUS OF THE DECISION

The Decision adopted in connection with the adoption of this Amendment is an integral part of the Energy Charter Treaty.

**DECISION IN CONNECTION WITH THE ADOPTION OF THE
AMENDMENT TO THE TRADE-RELATED PROVISIONS OF THE
ENERGY CHARTER TREATY ADOPTED ON 24 APRIL 1998**

A signatory which does not apply the Amendment adopted on 24 April 1998 provisionally may at the time that it takes action to apply that Amendment, whether on a definitive or a provisional basis, notify the Secretariat in writing that until it is listed in Annexes BR and BRQ, it will apply the Amendment as if all items of Energy Materials and Products and of Energy-Related Equipment continued to be listed in Annexes EM I and EQ I.

The Amendment shall apply accordingly to such a signatory.

Any signatory may at any time withdraw the notification referred to above in writing to the Secretariat.

UNDERSTANDINGS

1. Understanding with respect to Article 29(2)(a) and Annex W:

Notwithstanding the listing of paragraph 6 of article XXIV of the GATT 1994 in Annex W (A)(1)(a)(i), any signatory affected by an increase in customs duties or other charges of any kind imposed on or in connection with importation or exportation referred to in the first sentence of that paragraph, is entitled to seek consultations in the Charter Conference.

2. Understanding with respect to Article 29(7):

In the case of a signatory, not a member of the WTO, which is listed in Annexes BR or BRQ or both, any concession offered formally in the process of its accession to the WTO with respect to Energy Materials or Products listed in Annex EM II or Energy-Related Equipment listed in Annex EQ II shall, for the purpose of this Article, be regarded as a commitment under the WTO.

3. Understanding with respect to Articles 29(6) and (7) and 34(3)(o):

The Charter Conference shall conduct an annual review with respect to any possibility of moving items of Energy Materials and Products or Energy-Related Equipment from Annexes EM I or EQ I to Annexes EM II or EQ II.

JOINT DECLARATION ON TRADE-RELATED INTELLECTUAL PROPERTY RIGHTS

Signatories confirm their commitment to provide effective protection of intellectual property rights following the highest international standards.

Intellectual property rights include for the purpose of this Declaration in particular copyright and related rights (including computer programmes and data bases), trademarks, geographical indications, patents, designs, topographies of semiconductor products and undisclosed information.

**DECLARATION IN CONNECTION WITH THE ADOPTION OF THE
AMENDMENT TO THE TRADE-RELATED PROVISIONS OF THE
ENERGY CHARTER TREATY ADOPTED ON 24 APRIL 1998**

Since the start of negotiations on the Amendment some delegations including in particular Australia, Hungary and Japan have underlined that they support a system of binding tariff commitments provided their commitments in the context of the Energy Charter Treaty reflect their commitments in the WTO.

The Charter Conference will give this position positive consideration at the time the first decision on introducing a legally binding tariff commitment is taken.
